sufficient time to make arrangements.
Cornell Floriculture Alumni & Friends Event
Monday August 10, 2015 5:30-7 PM
Cornell Plantations - Nevin Welcome Center

Enjoy networking, jazz, appetizers and New York wine in a beautiful setting

Who? Friends and Alumni of Cornell with a passion for floriculture

What? Mingle with colleagues, visit Plantations botanical garden including a Proven Winners trial. Featuring appetizers, soft drinks and New York Wines. Music by Professor Tuesday’s Jazz Quartet.

$30 registration fee (see insert)

When? 5:30-7:00 PM Monday August 10

Where? The Nevin Welcome Center, address is: 124 Comstock Knoll Drive, Ithaca, NY 14850. There is a parking lot directly adjacent to the Welcome Center – Parking is FREE after 5:30PM

Interactive map of Cornell [http://www.cornell.edu/maps/]

Map and Directions to Field Day

Parking for Field Day Morning Program – Vet School
Parking FREE with your registration! Just drive directly to the B-Lot and pick up your pass. Proceed to the B-Lot for parking and look for our table in the parking lot at the corner of Campus Rd and Tower Rd. Pick up your pass from us, park, and walk to the Vet School (1-block). Note map on the lower left. Campus is not very GPS friendly, some GPS units will recognize 144 East Ave., Ithaca, NY 14850, B-Lot is about 5 blocks east of there on Tower Road).

Directions to Afternoon Field Day Program at Bluegrass Lane (Free Parking)
GPS may recognize 50 Bluegrass Lane, Ithaca or the intersection of Warren Road and Bluegrass Lane

From Warren Rd (near the Robert Trent Jones Golf Course) turn Right onto Bluegrass Lane. Take the second Left into the research facility and follow the gravel road to the fenced trial gardens
There are 4 different categories you may enter:

- 10-14-inch (outside diameter) hanging basket (larger sizes enter in Unlimited category)
- 16-inch patio container (larger sizes enter in Unlimited category)
- Unlimited class - no limits in size or content
- Edibles (vegetables, herbs, edible flowers) – No size limit

A contestant may enter any or all categories. Multiple entries per category are encouraged! Each entry is $25. All entry fees are donated directly to IBD research at Mt. Sinai Hospital. Since 2003 we have raised more than $10,000 to support this cause.

Bring Entries to Bluegrass Lane
Entries must be delivered to the Bluegrass Lane site (see map) on either Monday **August 10 from 3-6 PM** or on **August 11 before 9 AM**. There is a covered area to store the containers should the weather be inclement.

Questions? Contact Karen Hall at: (716) 941-3502

---

**Integrated Pest Management In-Depth**

**Wednesday, July 22, 2015** - Plant Science Building, Cornell University, Ithaca NY

Registration at 10:45 AM  Program: 11:00 AM to 4:30 PM  4.0 DEC pesticide recertification credits applied for

**TOPICS**

The Doctor is IN: Bring plant samples with pest, disease or nutrient issues. We'll try to determine the problems and discuss effective management plans.

Pint-Sized Predators – mites for biocontrol
In this session, we will learn about the identification, biology, behavior, and application of predaceous mites used for biocontrol of greenhouse pests, with an emphasis on *Amblyseius cucumeris* for biocontrol of thrips.

Control freaks – using plant growth regulators successfully
Plant growth regulators (PGR’s) are extremely useful tools for some greenhouse crops, but if used incorrectly, you might not get what you hoped for. Bill Miller will cover all the aspects of using PGRs safely and accurately to get the perfect plant – choice of PGR and what they do, proper mixing and application, and how to do those calculations correctly!

Get Smart! – using your smartphone to manage insect pests
Learn how to use the Greenhouse Scout app to identify pests and figure out which beneficials to use to manage them. Then put your scouting results right in your smartphone or pad and check the graphs to see what the populations are doing! You will receive a copy of the app when you register for the IPM In-depth.

For additional information, parking assistance, or accommodations information contact **Elizabeth Lamb** at eml38@cornell.edu or (607) 254-8800

---

**Kathy Pufahl Container Design Competition**

held in conjunction with Floriculture Field Day on August 11, 2015

Feeling creative? Claim your spot as one of the best container designers in the state!

Contest Details and Judging
The 10- to 14-inch and 16-inch classes are limited to living plant material only. The unlimited and edibles classes have no limits on size or what can be used in addition to the plants. Be imaginative!

Please label each entry with the plant material used and the name of your entry.

Judging starts at 9:00 AM on August 11, and entries will be judged as they are at that time (no late entries). Containers will be graded on use of form and texture, color palette, choice of plant material and container, signage, and creativity. A complete list of judging criteria is at www.greenhouse.cornell.edu → field day → judging criteria

Awards to the top 3 entries in each category will be presented during the afternoon portion of Field Day following lunch.

Bring Entries to Bluegrass Lane
Entries must be delivered to the Bluegrass Lane site (see map) on either Monday **August 10 from 3-6 PM** or on **August 11 before 9 AM**. There is a covered area to store the containers should the weather be inclement.

Questions? Contact Karen Hall at: (716) 941-3502

---
